EARTHQUAKE SAFETY ACTIVITIES FOR CHILDREN AND TEACHERS (FEMA 527 / AUGUST 2005)

Createspace, United States, 2013. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book ***** Print on Demand *****.Since earthquake shaking is possible almost everywhere in the United States, earthquake safety should be practiced by everyone. There is a great deal that you and your students can do to take care of yourselves during and after an earthquake. The lessons in this booklet cover planning, preparation, practice, and more practice. The classroom activities are designed for students in kindergarten through sixth grade. We provided teaching notes; Learning Links summarizing interdisciplinary connections; and a set of masters ready to reproduce for transparencies, handouts, and worksheets. Students find the topic of earthquakes fascinating. Their fascination may contain an element of fear, like the fear that arises in teaching fire safety. That fear can be reduced by reminding them that they are learning how to take care of themselves if an earthquake happens. Parents fears may also need to be addressed. Let your students know that fear is a normal reaction to any danger. Make your message clear: We can t do anything to prevent earthquakes, but we can prepare ourselves to cope with them. We can help ourselves and others to do many things that will make our homes and schools safer. This publication provides ready-to-use, hands-on activities for students and teachers explaining what happens during an earthquake, how to prepare for earthquake shaking, and how to stay safe during and after an earthquake. The Federal Emergency Management Agency (FEMA) and the National Science Teachers Association have also prepared Earthquake: A Teacher s Package for K-6, which includes hands-on classroom activities to support all elementary subject areas: creative writing, art, mathematics, social studies, and science. Known as Tremor Troop, this publication contains matrices that link the classroom activities...
