

Information Preservation And Library Mangement

By Ramesh Chandra And A.P. Shrivastava

2003. Hardcover. Book Condition: New. 264 Preservation of library materials has been a problem since the establishment of the first library in antiquity. Deterioration and decay are part of the inherent factors affecting all organic materials. In order to preserve the knowledge of past generations for the use of future students and scholars, steps can be taken to slow down these natural processes. Digital libraries have various methods and technologies to preserve and use the book, namely, acquisition, classification, cataloguing, accessioning, etc. These are treated as library technical activities and once the book is processed through library it is then ready for circulation to users. Today, global libraries use network security, policies to ensure the implementation of their security model, in maintaing network security, protection of information loss, alteration, unavailability and the safeguarding of the organisations network from internal and external threats. About The Author:- Prof. Ramesh Chandra, was born in a family of academician and freedom fighters on July 1st. 1957 in village Bijwara, District Meerut of Uttar Pradesh. He started his research career at University of Delhi and then went to the New York Hospital-Cornell University Medical Center, as well as at the School of Medicine, State University...
